V1.0/ICO Form/28-07-2021 with F S R A Guidance & Regulations.

All disputes arising under this agreement shall be governed by and interpreted in accordance with the laws of UAE, without regard to principles of conflict of laws. The parties to this agreement will submit all disputes arising under this agreement to arbitration in Dubai, before a single arbitrator under the rules of Arbitration of the International Chamber of Commerce. No party to this agreement will challenge the jurisdiction or venue provisions as provided in this section. As if the Financial Services Regulatory Authority (FSRA) under the ministry Economic Innovation Platform by Federal law No 1, of 1976.- which is the financial regulator of the Abu Dhabi Global Markets (ADGM).

Risk of losing access to Defitt, due to loss of Private key/s, Custodial Error or Participant Error :

A free zone in Abu Dhabi – has become the first regulator in the UAE to issue comprehensive guidance and regulations on carrying out The ADGM regulations highlight mandatory requirements to carry out the regulated activity and aim to promote transparency and technology governance in order to ensure compliance with anti-money laundering and combating financial terrorism requirements. It should be noted that the ADGM regulations have recently been published and, as such, a concrete conclusion with respect to their implementation has been provided in the said law. Meanwhile, the Dubai Multi Commodities Centre (DMCC) under the GDFRA of Ministry of Economic Affairs, has introduced a regulated activity known as “proprietary trading in crypto-commodities”, suggesting that the DMCC views cryptocurrency as commodities. However, businesses in the DMCC carrying this licence are only permitted to trade on their own behalf (that is, to use their own funds for trading),

*and establishment of exchange houses and conducting ICOs is still not covered under this licence. Another noteworthy development is the issuance by the DMCC of a licence to a DMCC company enabling such company to be among the world's first cryptocurrency deep "cold storage" vaults.

A Wallet is necessary to acquire, hold, and dispose of Defitt The Participant hereby understands that he/she/ it is responsible for setting up the Wallet with a third party provider to hold Defitt Coins, he/she/ it is responsible for implementing reasonable measures for securing the Wallet. Accordingly, loss of requisite private key/s associated with the third party Wallet holding Defitt result in loss of such Defitt Coins and any other cryptocurrencies and/or tokens held within. Moreover, any third party that gains access to such private key/s, including by gaining access to login credentials of the Wallet that the Participant uses, may be able to misappropriate the Participant's Defitt Coins. Any errors or malfunctions caused by or otherwise related to the Wallet that the Participant chooses to receive and hold Defitt including the Participant's own failure to properly maintain or use such wallet or caused as a result of the choice of third party provider for the Wallet may also result in the loss of Defitt Coins Additionally, the Participant's failure to follow precisely the procedures set forth in the Terms for acquiring and receiving Defitt Coins including but not limited to, the provision of the wrong Wallet address for receiving FCFT may also result in the loss of his/her/ its Defitt Coins.

Risk of Mining Attacks :

As with other decentralized cryptographic tokens based on the Binance Smart Chain, (BEP20 tokens) and as well as also Polygon (Ethereum 2.0) Defitt Coins & fTT Coins are susceptible to attacks by miners in the course of validating Defitt Coins & for fTT Coins transactions on the Binance Smart Chain or Polygon including, but not limited, to double-spend attacks, majority mining power attacks, and selfish-mining attacks. Any successful attacks present a risk to the Betting Platform and/or Defitt Coins or fTT BONDS including but not limited to, accurate execution and recording of transactions as per DeFi Yield Protocol. The Securities and Commodities Authority (SCA), the securities regulator of the UAE, and Dubai Financial Services Authority (DFSA), the financial regulator of Dubai International Financial Centre, recently announced that they have not issued regulations to govern ICOs and establish cryptocurrency exchange houses in the UAE. In their statements, both financial regulators emphasized the high risk associated with trading in cryptocurrencies, and that investors who carry out these investments do so at their own risk.

THE POLYGON & BSC NETWORK

DEFItt is built on the Polygon & Binance Smart Chain (BSC) which are block chain networks designed for the execution of smart contract/based applications Polygon is Ethereum 2.0 With POS while BSC operates in tandem with Binance native Binance Chain (BC) giving consumers the best of all worlds, the high transaction potential of BC and the smart contract features of BSC. Polygon & BSC supports smart contracts that are Ethereum - compatible. Developers may use this function to easily install or move the Apps, tools and other ecosystem components on the BSC network. Additionally, Binance Smart Chain implements the ethereum Virtual machine (EVM), allowing it to run Ethereum - based applications . The most significant advantage of block chain is decentralization. The autonomous transparent block chain executes smart contracts exactly as they are designed, with no manipulation, surveillance, downtime or external third/party disturbance. Transparency is also another major advantage gained by the use of block chain. Since the blocks are distributed to every node on the grid, everybody has access to the block chain. Since the whole ecosystem is distributed and Proof of Stake - POS based it is incredibly difficult to hack the system, resulting in high Security.
